

Service Offering Implementation

Time and Labor Practice

Successfully introducing Time & Labor Management technology can generate great rewards such as controlling labor costs, eliminating manual effort, and reducing costly errors.

The Wise Consulting team knows how to select and implement the best and right solution to fit your organization's goals and culture.

Experience

As a commitment to our clients' success, Wise Consulting built a team with outstanding Time & Labor Management industry knowledge as well as extensive experience in HR, Payroll, and labor relations.

Our solid reputation allowed us to cultivate relationships with leading system vendors, providing in-depth product and company knowledge and a unique perspective to assess proven and emerging technology.

Our Time & Labor Management experience includes complex client needs, such as:

- Multi-location
- Multi-union
- Diversified data collection devices
- Hourly, exempt, non-exempt time tracking
- Scheduling

Our Approach

The Wise Approach to implementation delivers:

- Flexibility – Our experiences range from overall responsibility for managing each project phase to rounding out your internal project team.
- Knowledge Transfer – Our facilitated analysis sessions enable effective decision making and bring system knowledge and comfort to the internal team members.
- Focus on the User – You can trust Wise to listen to your people and understand how to deliver technology throughout your organization.
- Commitment to Excellence – We believe in setting high goals and standards of performance for ourselves and know that your satisfaction and loyalty depend on it.
